

Qetesh International is a Western Australian business, which commenced in 2003 and was founded by Diana and Joel Forrest.

Qetesh International distributes Egyptian Loofah (Luffa Aegyptiaca).

The popularity of the Loofah for personal hygiene use has established itself as a favoured natural alternative to the synthetic/artificial sponges in the market today. This is due to the gentle exfoliating effect the fibres have, which in turn deep cleanses and conditions your skin naturally.

Our philosophy is that bath time is a perfect retreat to alleviate you from daily stresses. It's a chance for your body and mind to finally relax. Making the most of this quality time is essential. Our Qetesh Body Loofah products will enrich your showering experience leaving your body feeling nurtured and revitalized. You will be impressed with this superior gift from Mother Nature, satisfaction is guaranteed.

What is Loofah?

The Loofah is an all year-round climbing plant with beautiful yellow flowers. Its fruits are cylindrical and during ripening the interior is transformed into a dense network of fibres somewhat like a mesh. It is the only plant known that can be raised and used as a sponge.

Loofah products are very versatile in that they can be used for bathing and household use. A distant cousin of the cucumber, the Loofah is harvested in late spring and has a preference for the warmer climate.

When cultivated mid-season the young Loofah is thick and fibrous which is attributable to it being instantly soft and resilient.

Loofah products are 100% natural, biodegradable and are a totally renewable resource.

Qetesh® Body Loofah is uniquely designed and comes in a range of 15 products. They are all biodegradable, 100% natural and are the best

way to stimulate blood circulation whilst gently massaging away dead skin cells. Natural fibres give skin a softer, smoother glow. Loofah has been cultivated for bath time luxury for hundreds of years.

Feel the difference in your skin tone and condition.

Our exclusive product range is 100% natural, eco-friendly, provides therapeutic benefits and is suitable for all skin types.

Qetesh® Body Loofah products are available for wholesale and retail distribution.
